BLINDS // SHUTTERS

MADE TO MEASURE PHOENIX 63MM SHUTTER BLINDS

**UNLEASH THE POTENTIAL FOR PERSONAL EXPRESSION
AND NEVER COMPROMISE ON COLOUR OR STYLE AGAIN!**

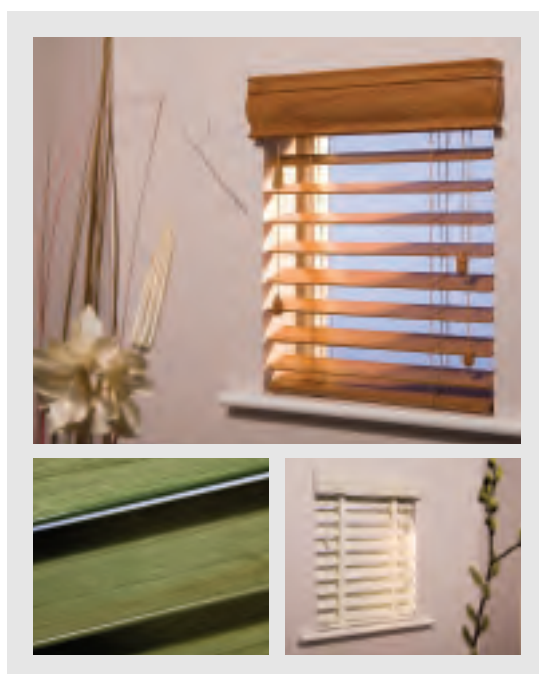

SHAFTESBURY'S CUSTOMISED SERVICE CAN MANAGE EVERY STAGE OF THE PROCESS FROM DESIGN ADVICE TO A COMPLETE MEASUREMENT AND FITTING SERVICE.

WE OFFER MORE FEATURES, COLOURS, TAPES AND TRIMS THAN ANYONE ELSE, CREATING MADE TO MEASURE BLINDS BRIMMING WITH CHARACTER.

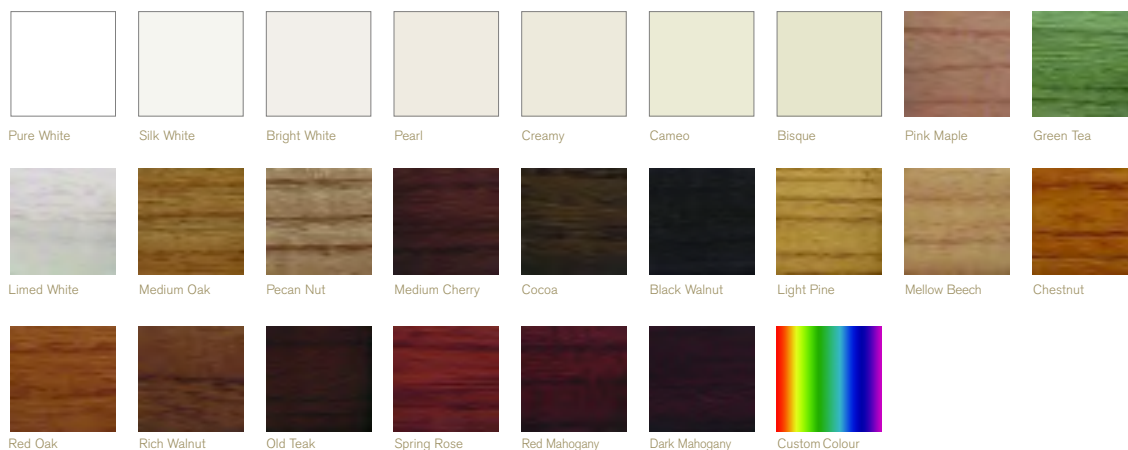

All blinds can be made to your exact size and specifications and are available in widths 305mm-2438mm and drops 254mm-2438mm, with a variety of control positions.

Our exclusive finishing process makes our colours and textures the richest you'll find.

Choose from a wide array of the latest and most popular paints and stains, matching our Phoenix Wood Shutters. Or why not opt for our custom colour matching service, and choose any Dulux or Farrow & Ball shade to compliment virtually any shade of room.

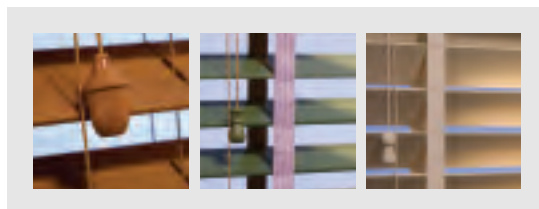

COMPLETE COLOUR PALETTE AVAILABLE TO MATCH WITH PHOENIX WOOD SHUTTERS

ALL BLINDS COME WITH COLOUR
CO-ORDINATED LADDER CORDS.

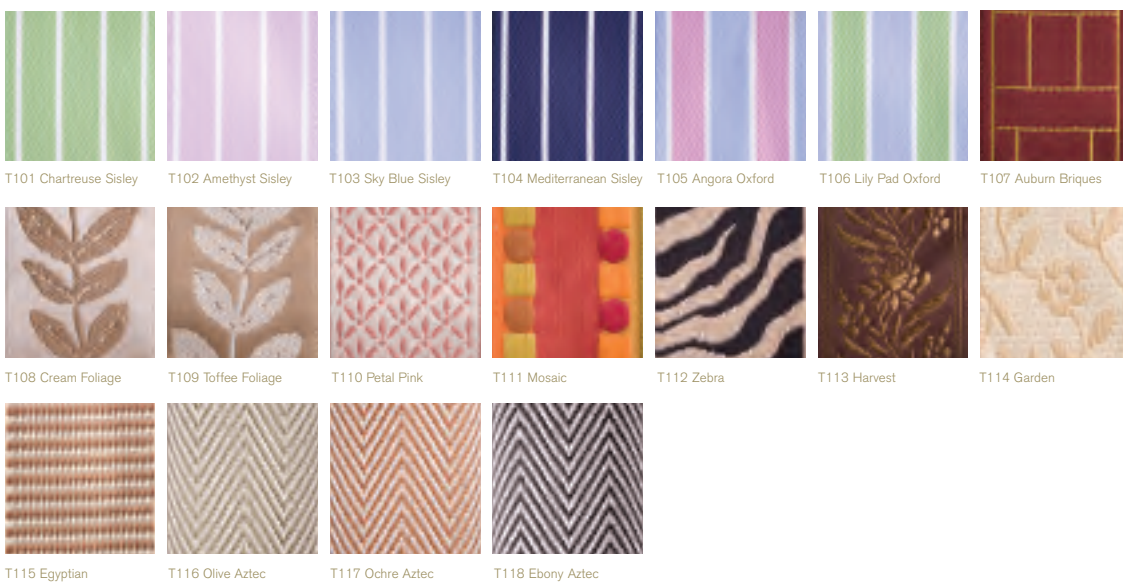

Alternatively you can customise your blinds with
our tapes and trims. Our designer collection is
filled with striking colours and intriguing textures.

SOLID CLOTH TAPES (not available with routeless privacy option)

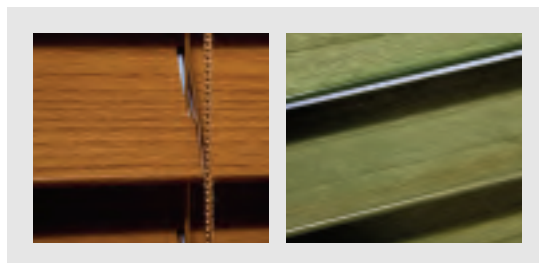

DECORATIVE TAPES (applied to solid cloth tapes generally applied on room facing side only)

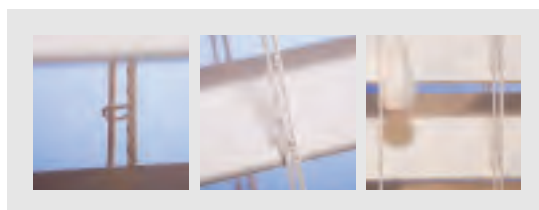

PHOENIX 63MM WOOD SLAT BLINDS ARE STRONG YET LIGHT, WARP RESISTANT AND MAINTENANCE FREE.

A multiple sanding and coating process, ensures that they are beautifully finished. The quarter sawn slats showcase depth and character through the grain and ensure that they stay straight for years to come.

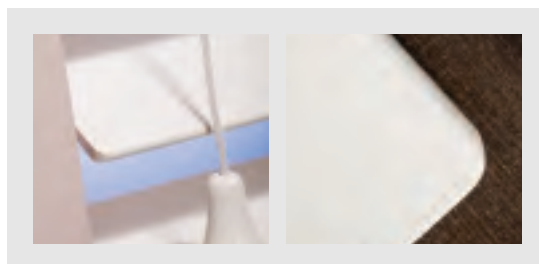

FOR GREATER LIGHT CONTROL AND PRIVACY, SELECT THE REVOLUTIONARY "ROUTLESS" OPTION.

Instead of having holes in the middle of the slat it has a notch at the back of the slat. This allows the slats to close tighter therefore offering better light control and privacy.

SLAT OPTIONS

Choose from standard edge or round cornered edge slats.

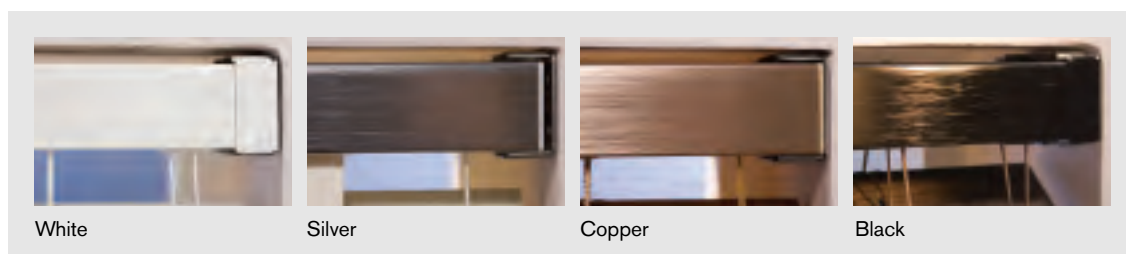

ALL BLINDS COME WITH A SLEEK YET ROBUST BOTTOM RAIL.

The trapezoid bottom rail is designed with an innovative Bottom Rail Cap, so no protruding bottom rail button (also minimises gap at the bottom of the blind for recess mount and is dent free for window casement)

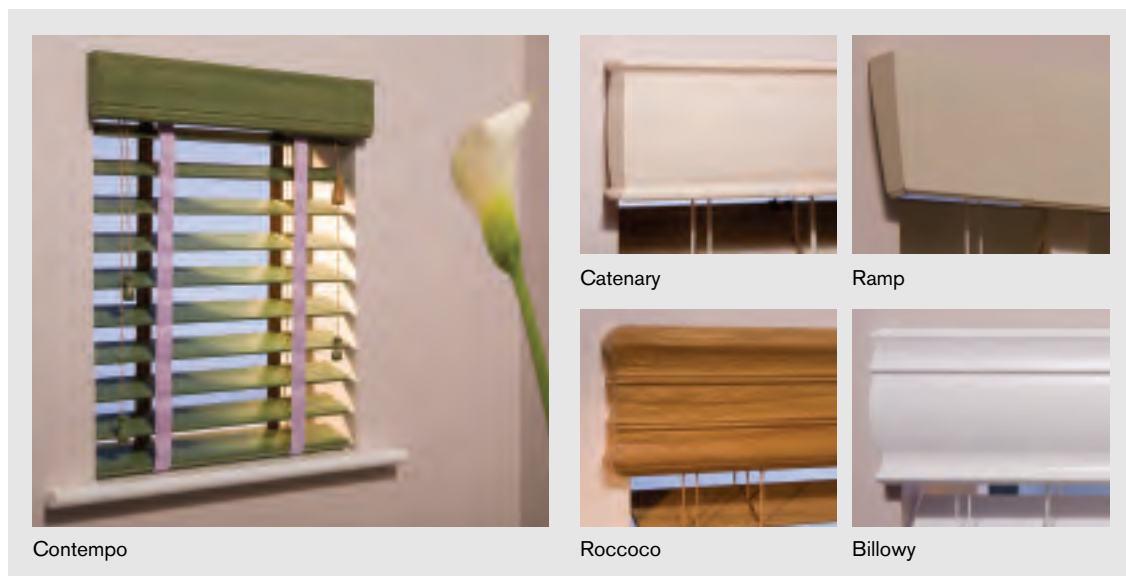

HEADRAIL OPTIONS

Choose from a variety of headrail options, which look good with or without a valance. Where blind width exceeds 1829mm, we recommend that you have multiple blinds on one headrail, each blind will however, have separate controls.

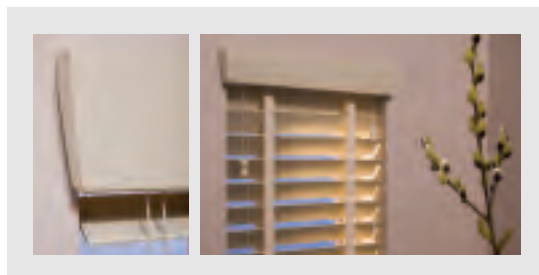

VALANCE OPTIONS

Our valance options have been selected to compliment most traditional or contemporary interiors.

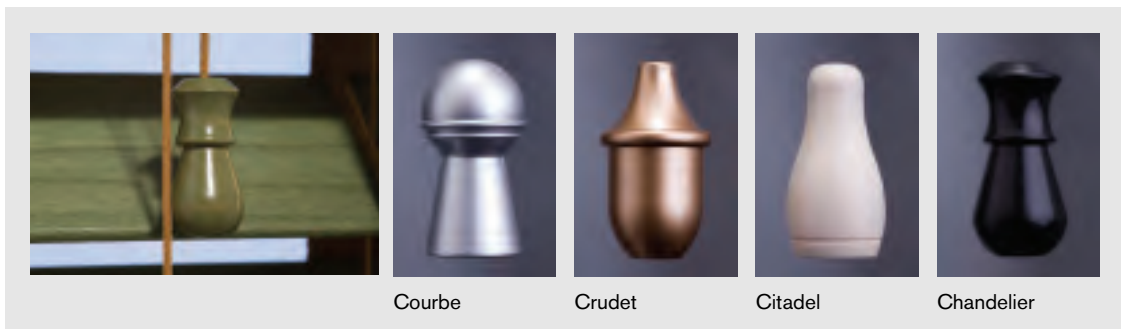

FITTING OPTIONS

We have a variety of fitting options for you to choose from, outside recess with a valance with mitred returns (cover the sides of the blind headrail), inside the recess with a standard valance or inside the recess with a valance mounted on the outside with mitred returns (as shown).

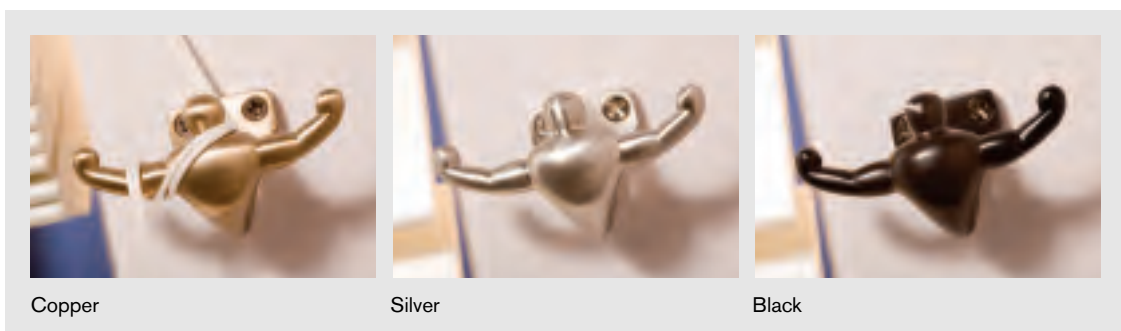

TASSEL DESIGNS

We offer a variety of tassel designs and colours available in silver, copper, black or alternatively in a wood finish which can be painted or stained to colour-co-ordinate with your blind.

CLEATS

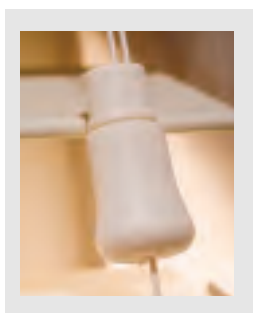

Tidy away hanging cords with our stylish cleats available in three contemporary colours.

CHILD SAFETY LOCK

All blinds come with a child safety mechanism as standard.

The device breaks apart when minimal pressure is exerted on the cords to help prevent entanglement.

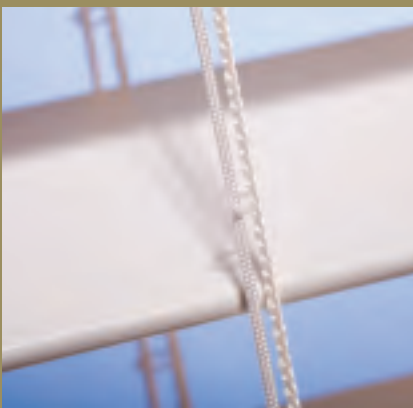

INSTALLATION

You'll receive all necessary hardware, safety tassels, and easy-to-follow installation instructions should you wish to install the blinds yourself or alternatively we can fit them for you.

WARRANTY

To give you complete peace of mind, Phoenix Shutter Blinds come with a 3 year anti-warp and colour fastness warranty. So you can trust Shaftesbury Blinds // Shutters for quality products that will last, and add higher resale value to your home.
